Did you know?

Some other lawn care companies use harmful ingredients such as:

- SLUDGE
- UREA
- CHLORINE
- SALTS

THE ECO-FRIENDLY CHOICE

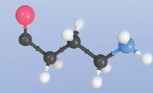

Lawn Treatments for *Healthier Soil and Grass* Have a *beautiful green lawn, safe for your family and pets*

Rooted in science, and developed by a team of leading agronomists, our proprietary fertilization and weed control program has been carefully selected to use more organic ingredients and less synthetic inputs, resulting in a lawn that's greener longer, and more resilient to drought, disease, and weeds. At our core, we're doing lawn care as nature intended.

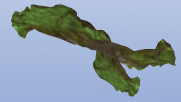

Canopy removes these harmful ingredients from the equation by only using safer, organic-based products:

COFFEE GROUNDS

AMINO ACIDS

SEA KELP

PROBIOTICS
