**PROTECT YOUR INVESTMENT!**

*Pruning promotes the health, beauty and life span of your trees!*

"For your protection as well as others, I recommend the pruning of large trees that hang over houses, roofs, gutters, drive & streets.

By thinning trees that hang over wood roofs & wood decks, you allow sunlight through and prevent wood rot.

**Trees that are not maintained** - are subject to high winds and storms and can be damaged beyond repair."

**"We Reach the Tallest Trees"**

**FULLY INSURED - Workers Comp & Product Liability**
